To: Potential Exhibitor

Dear sir/madam:

On behalf of the Operating Committee, I would like to cordially invite you to participate in our forthcoming event (2006 American Control Conference) in Minneapolis, Minnesota, on June 14-16, 2006. This event held in cooperation with the International Federation of Automatic Control (IFAC) will bring together people working in the fields of control, automation, and related areas from 10 major professional societies. To assist in your planning for this event, enclosed please find: (1) The call for papers, (2) Information on the conference and the venue, and (3) A sample copy of the contract with the exhibitors. If you have any questions, please email your contact information to Michael_R_Moan@raytheon.com.

Some advantages of exhibiting your products at our ACC event include: (1) The exhibits will be placed in a common middle area between the technical sessions, (2) refreshments will be in the exhibits area, (3) ACC being the primary conference in controls the attendance is always high and is expected to increase from last year, (4) The CD-ROM reading area will also be located near the exhibits, and (5) The event offers a great opportunity for advertisement through a web link that will be provided by the conference home page. This is the silver anniversary for the conference and special activities are being planned. Also, the operating committee is increasing emphasis on the recruitment of local industries and Minneapolis should be an excellent venue for the ACC.

We hope you may consider this venue next year for your exhibits and please feel free to contact me if you may have any questions. I will be contacting you again after the first of the new-year to determine your level of interest.

Sincerely,

Michael R. Moan
Exhibits Chair, 2006 ACC
